

STAFF SMALL GROUP COMMENTS:

Question #14- Other comments or suggestions?

Excellent learning experience as a new teacher

To make this program really effective there needs to be a follow up visit in which more classes and teachers are able to participate in the small group session. A parent night would be great for our community. Just participating in this activity allowed for growth in the students and myself. However, we need to keep conveying this message so that it becomes even more meaningful. One goal that I have set for myself is to put into practice, on a daily basis, the things I learned today so I can be a "mentor of change" for our students and our staff in this school. Remind the students of what we learned today and challenge the students to continue practicing the principles. Thank you so much Dwayne for a great presentation and small group workshop! I look forward to seeing you in our building in the near future.

Excellent session :) I value these sessions because it lets students see each other in a different light and they begin to understand the power of their action and words. Wish it was longer. Thanks :)

Please have Dwayne come and do this again next year!

Parent session in a school would be valuable, as well as a drug presentation for as gr. 9 students. Thank you :)

IT WAS GREAT TO SEE THE STUDENTS FULLY COMMIT & OPEN UP

I would like to see & participate in a parent session

It is a great program that I strongly believe in.

Amazing !

Every student should be here to attend

Speak to my leadership students & all other students in our school.

Powerful how you can grasp students attention and give them the comfort to show their icebergs. This is a step in the right direction.

It was a great session. You have a way with the kids and are excellent at asking questions to provoke deeper thought. They also have really opened up & showed students respect that need it & do not usually get it!

I thought it was very important that some kids were directly confronted about their behavior- thank you!

I believe in order for this to work with full effect we will need to all work together by reminding but also have follow-up sessions so we don't let it slide. I also look forward to a parent night as I think it will be very beneficial in our community.

Train teachers/administrators to facilitate this in their schools. Project Peace. If possible, have all students participate in small group sessions.

I would like to see Dwayne come back in 2 years or less. I believe he has a real connect with staff and students :)

Thank you for all your energy and heart!
